

# Responsible investment report

This report outlines our activities and actions in line with our *Responsible investment and proxy voting policy*.

In reporting on our approach to environmental, social and governance (ESG) practices and performance, we reference the [UN Principles for Responsible Investment](#). These include:

- Incorporating ESG issues into the investment analysis and decision-making process.
- Active ownership.
- ESG disclosure by investee companies.
- Collaboration.
- Reporting on our activities.

## Incorporating ESG issues into the investment analysis and decision-making process

### INTERNAL INVESTMENT MANAGEMENT

#### Pre-investment due diligence

Unlisted assets: no new investments during the six months to 30 June 2020.

Fixed income: met with four sustainability/green bond issuers.

### EXTERNAL MANAGER SELECTION AND MONITORING

Manager appointment:

- We have appointed one new fixed interest manager in the first half of the 2020 financial year. Our assessment confirmed that the manager undertakes robust consideration and integration of ESG into their investment management processes.

Manager monitoring activities:

- We completed our biennial deep dive on ESG across all incumbent equities and fixed income managers, and assessed their ESG performance as robust. A key part of our reviews is testing the detail of ESG analysis and level of integration within a manager's investment process.

- We discussed and analysed many key ESG issues, including: Company responses to COVID-19, corporate culture, director elections at AGMs, executive remuneration, climate resilience, sustainability reporting and the energy transition, worker safety, human rights in the supply chain, and modern slavery reporting. Many of these issues are long-term themes, and we discuss them with managers on an ongoing basis.

### WHOLE OF PORTFOLIO ESG ANALYTICS

- We reviewed our holdings and options with respect to climate risks, weapons, ESG ratings, controversies and exposure to Sustainable Development Goals (SDG) themes.
- We commenced portfolio analysis in preparation for our Modern Slavery Statement (required under the Modern Slavery Act).

### OTHER ESG CONSIDERATIONS

- We addressed ad hoc member queries and NGO activism—largely relating to climate change issues.
- We continued to monitor and assess various tools to assist in identifying and evaluating ESG risks in the portfolio.
- We are setting climate targets for our investment portfolios. This will allow us to better understand what aligning to the Paris Agreement could look like.

## Active ownership

### DIRECT ENGAGEMENT

#### Listed company engagement

Despite COVID-19, we increased the ambition and scope of our ESG engagement. We engaged with company CEOs, senior executives, directors and chairs on a range of both ESG-related and broader commercial matters. We also had 133 company meetings to discuss specific ESG-related issues. Many of the issues we raised are areas of ongoing dialogue and engagement.

Read more about [how we engage with companies](#).

### Unlisted company engagement

We continued to monitor and encourage our unlisted investments to improve their ESG reporting (including workplace health and safety).

### Private equity

We have a small allocation to private equity (PE) (less than 0.5% of the Fund) and haven't committed to any new PE funds since 2008.

## THIRD PARTY ENGAGEMENT

### The Australian Council of Superannuation Investors (ACSI)

In addition to our own direct engagement with companies, ACSI (of which we're a founding member) conducts extensive engagement and research activities on behalf of its members. In the period, ACSI published reports on Climate Risk Transition and COVID-19 response. ACSI also meets with most Australian listed companies ahead of their AGMs and produces proxy voting advice on all resolutions. It has a particular focus on board composition, diversity, succession planning and remuneration.

For more detail about ACSI's engagement and impact, visit [www.acsi.org.au](http://www.acsi.org.au) to read their annual report.

### CGI GLASS LEWIS

We use CGI Glass Lewis for engagement and advice on international proxy voting matters.

## INVESTMENT MANAGERS

Our external managers also engage with investee companies. We regularly discuss and compare corporate engagements with our external managers in order to assess differing views and test consistency (and progress).

## KEY ENGAGEMENT ITEMS

### ESG disclosures

In the last six months, we provided reporting feedback to Carsales, CSL, Woolworths, ASX Limited, Rio Tinto, James Hardie, Macquarie, Reliance Worldwide Corporation, Cleanaway, NAB, Mirvac, and Chorus.

### Climate Action 100+

The Climate Action 100+ is a global investor collaboration, facilitated (in Australia) by the Investor Group on Climate Change. It requests companies to report on and demonstrate alignment with the goals of the Paris Agreement. This engagement focuses on the 100 companies with the highest scope 1, 2 and 3 emissions globally, plus 61 other companies identified as having material climate related risks. We're a lead investor for one company, and are a supporting investor for five others as part of the Climate Action 100+. Visit [www.climateaction100.org](http://www.climateaction100.org) for more information.

### Modern slavery and human rights in the supply chain

The Modern Slavery Act has been in effect since 1 January 2019, and is highly topical for all Australian companies. The term 'modern slavery' refers only to the worst forms of exploitation and not to other serious human rights breaches like denial of worker safety, denial of freedom of association, or underpayment. Examples of modern slavery would, however, include forced labour where victims are made to work through violence, intimidation, confiscation of passports, and debt bondage (where a person is forced to work for free to pay off a debt).

We're required to produce our own Modern Slavery Statement by 31 March 2021. We regard the companies we invest in as part of our supply chain. We've surveyed all of our external managers and our large holdings—the outcomes will form part of our Modern Slavery Statement.

### Company culture—COVID-19

Since the outbreak of COVID-19, and throughout the ensuing pandemic, we've been engaging with company management and boards with respect to their response and approach to the pandemic. We've had wide-ranging discussions around culture and remuneration, and how boards can have visibility of organisational culture and stakeholder management.

### Remuneration policies

In addition to pre-AGM meetings, we provided feedback to Woodside Petroleum, Rio Tinto, Santos, Ampol (formerly known as Caltex), Mineral Resources, CarSales, Ramsay Healthcare, AMP, Macquarie, Amcor, and Woolworths.

### Other areas - ongoing and emerging

- Waste management - plastics and the circular economy
- Data security and digitisation
- Cultural heritage management
- Sustainable food systems - including antibiotic resistance, climate resilience and adaptation, alternative protein
- Automation and robotics
- Franchising.

## Case studies

### CLIMATE DISCLOSURES AND TARGETS

As an active long-term investor, we expect the companies we invest in to understand the climate risk within their businesses and disclose the activities (e.g. analysis, strategy and planning) they've undertaken in order to

reduce or mitigate these risks. This includes disclosing their current position in line with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), potential risks and opportunities, and setting climate-related targets (e.g. carbon emissions) and timeframes.

COMPANY	ENGAGEMENT	OUTCOME
<b>Woodside Petroleum (Woodside)</b>	<p>We've been encouraging Woodside to improve sustainability disclosures for several years and have been pleased with the improvements in its disclosures with respect to its oil and gas operations. However, we remain concerned with Woodside's lack of disclosure on how it assesses its business resilience and growth projects under various carbon constrained scenarios. Ahead of this year's AGM, we met several times with the Chair before deciding to vote for the shareholder resolution that asked for targets aligned with the Paris Agreement.</p> <p>We supported the shareholder resolution as it was not clear how the company planned to address the climate risks associated with its product.</p>	<p>Woodside has improved its sustainability disclosures</p> <p>We supported the shareholder resolution asking for Paris aligned targets</p> <p>There was 49.5% shareholder support for the resolution</p>
<b>Santos</b>	<p>We've been discussing Santos' response to climate change for many years. Santos was one of the first companies to produce a TCFD aligned report, and while it hasn't put in place scope 3 emissions targets, it is acting to reduce its scope 3 emissions. Having trialed carbon capture and storage over the last decade, the company is now looking to expand with a Joint Venture with BP at Moomba. We consider the company to be taking appropriate action to reduce the carbon risks in its product.</p>	<p>We didn't support the shareholder resolution asking for Paris aligned targets</p> <p>There was 43.4% shareholder support for the resolution</p>
<b>Rio Tinto (Rio)</b>	<p>We've been discussing Rio's response to climate change for many years. We've been pleased with the improvement in its sustainability reporting, and consider its climate reporting to robustly address the risks that its business faces. While it hasn't put in place scope 3 emissions targets, it is acting to reduce its scope 3 emissions, supporting research into low carbon steel manufacturing technologies.</p> <p>We consider the company to be taking appropriate actions to reduce the climate risks in its supply chain.</p>	<p>Rio has published a climate risk report, set operational net zero targets and is supporting research that will reduce scope 3 emissions.</p> <p>We didn't support the shareholder resolution asking for Paris aligned targets</p> <p>There was 36.9% shareholder support for the resolution</p>

COMPANY	ENGAGEMENT	OUTCOME
<p><b>Rio Tinto (Rio)</b></p>	<p><b>Juukan Gorge</b></p> <p>We have extensive engagement with Rio—directly and via collaborative groups—where indigenous land rights and broader human rights concerns have been a key issue.</p> <p>We’ve also participated in key stakeholder forums Rio has hosted, and reviewed its disclosures on Human Rights and Modern Slavery.</p> <p>Rio is committed to operating in accordance with the UN Declaration on the Rights of Indigenous peoples and we consider <a href="#">its approach on these issues</a> to be robust.</p> <p>Because of this, we were shocked and saddened when we learned that the cultural site at Juukan Gorge in Western Australia had been destroyed.</p> <p>We appreciate Rio’s transparency and its thorough disclosure of the Board Review into this incident, and we note its admission of numerous missed opportunities to revisit and review the matters raised. We’re pleased that Rio has identified a number of priorities for change, including more robust heritage risk assessment and management, and enhanced governance and accountability to ensure such incidents won’t re-occur.</p> <p>Nevertheless, we believe the decision (as a result of the investigation) to impose financial penalties for three senior executives does not demonstrate adequate accountability for the failures arising over this incident.</p> <p>We’ll discuss these issues in our ongoing engagement with Rio, emphasising the significance we place on cultural heritage management, maintaining an open and respectful dialogue with the First Nations people, and appropriate accountability for failures in areas that we believe are a core management responsibility when they arise.</p>	<p>We’re engaging with Rio to determine:</p> <ul style="list-style-type: none"> <li>• what changes are proposed to ensure such incidents are not repeated, and</li> <li>• what further accountability will be taken for the failures identified.</li> </ul> <p>We’ll report on outcomes in our next <i>Responsible investment report</i>.</p>

## PLASTICS AND THE CIRCULAR ECONOMY

Since the introduction of the China National Sword policy (under which China has severely restricted the amount of waste product it imports from other countries), we've been engaging with a range of companies and stakeholder groups to better understand how Australia's recycling and waste management industries operate to identify investment opportunities. This has involved participating in Principles for Responsible Investment (PRI) working groups, and multiple engagements with various stakeholders and companies—including Woolworths, Coles, Wesfarmers and Coca-Cola Amatil.

COMPANY	ENGAGEMENT	OUTCOME
<b>Cleanaway</b>	<p>As one of Australia's largest waste management companies, Cleanaway facilitates the collection and processing of waste. Our engagement with Cleanaway provided us with insights into some of the challenges in establishing better national recycling and waste standards.</p> <p>Over the last year, Cleanaway has made several positive announcements and investments, including increased methane capture to generate electricity, a joint venture with Pact and Asahi to pelletise plastics, and increased investment in recycling facilities and operations in Victoria.</p> <p>As part of these engagements, we provided feedback on how Cleanaway can improve its sustainability disclosures.</p>	<p>We have:</p> <ul style="list-style-type: none"> <li>▪ focussed on investment opportunities in the circular economy</li> <li>▪ Increased our holding in Cleanaway</li> <li>▪ Provided feedback on Cleanaway's sustainability reporting. Cleanaway will release its first ESG report in the 2021 financial year.</li> </ul>
<b>Amcor</b>	<p>We met with Amcor to better understand how it sees customer demand for recycled packaging product, and how recycled content is integrated into its supply chain. This engagement provided us with comfort that there was growing demand from companies (supported with ambitious targets) and consumers for recycled content, and that there is a wide range of uses for recycled content.</p>	<p>We've improved our understanding of opportunities in the circular economy</p>

## SUSTAINABILITY REPORTING

We encourage companies to make better sustainability disclosures.

COMPANY	ENGAGEMENT	OUTCOME
<b>Reliance Worldwide Corp (RWC)</b>	<p>We've been particularly proactive in providing RWC with an external viewpoint of how it was doing with its early ESG reporting, and the process it might follow to complete a full report with a more complete suite of goals and measures.</p>	<p>RWC published its first Social Impact report, with significant input from us.</p>
<b>Carsales</b>	<p>UniSuper has been engaging with Carsales on ESG issues for several years. In recent years, Carsales has:</p> <ul style="list-style-type: none"> <li>▪ rolled out a new Global Conduct &amp; Human rights policy</li> <li>▪ implemented a new global Whistle-blower Protection Policy</li> <li>▪ committed to maintain carbon neutrality—reducing its environmental footprint by moving to 100% cloud-based solutions.</li> </ul> <p>On remuneration, we've been pleased to see Carsales incorporating investors' feedback (including ours), and setting higher performance hurdles before the CEO earns a bonus.</p>	<p>Carsales has been improving its disclosures in its sustainability report, which has seen its MSCI ESG score rise to AA in 2020 (from B in 2016).</p>

## Proxy voting

As an active owner, we seek to exercise all proxy votes for listed Australian and international share holdings. You can find our Australian and international proxy voting process in our *Responsible investment and proxy voting policy*.

## SUMMARY OF VOTING RESULTS

### Australian voting outcomes

We voted 100% of our shares 'against' the remuneration reports of Syrah Resources Ltd. We note that we had a mixed vote on AMP's remuneration report.

Appendix 1 lists all the resolutions we voted on — at ASX listed company meetings — throughout the period.

### International voting outcomes

We exercise our proxy voting rights for shares held in international share markets on an ongoing basis throughout the year.

Over the last six months, we—together with our managers—voted on 24,079 resolutions at 2,024 company meetings across 45 countries outside of Australia (see Table 2A for a summary).

Appendix 2 provides detail regarding how we cast our votes at our 100 largest international holdings that held meetings throughout the period. (Changes in shareholdings and stock performance mean that top 100 holdings change throughout the year.)

If interested, members can request information on how we voted at specific companies and we'll happily provide it.

## SHAREHOLDER RESOLUTIONS

Shareholder resolutions are becoming a more common tool when engaging with companies across the world. When determining how to vote on shareholder resolutions, we consider the following factors:

- The legal framework in the jurisdiction. In Australia, there is no provision for non-binding advisory shareholder resolutions in the Australian Corporations Act. Most Australian proposals request an amendment to the constitution to facilitate shareholder resolutions, in addition to the specific request. We collaborate with shareholder groups (ACSI in Australia; the Asian Corporate Governance Association [ACGA] in Asia) to encourage appropriate mechanisms are in place.

- What the company has already committed to, and is doing. If a company is already meeting the substance of the request, our practice is to support the company (i.e. vote against the shareholder resolutions). We will always urge companies to be public about their actions and commitments but will rely on the word of the company through private engagement.
- The substance of the request. We will not support frivolous or vexatious resolutions. In some jurisdictions, shareholder proposals are not subject to any oversight, which means, for example, that there can be proposals regarding the food provided at the AGM.

Table 2B below summarises the shareholder resolutions on which we voted in the last six months (see Appendix 3 for a full list).

## Collaboration and promotion of ESG and responsible investment

The ESG community is highly collaborative and recognises that when investors work together, impact is significantly enhanced.

We're an active and engaged member of a number of different forums, including:

- ACSI, member of Board and Member Council
- Investor Group on Climate Change (IGCC), member of Management Committee and Thought Leadership Working Group
- Responsible Investment Association Australia (RIAA), member of corporate engagement working group
- Asian Corporate Governance Association (ACGA), and
- Principles for Responsible Investment (PRI), member of a working group on plastics.

Our ESG team has participated in a number of collaborative initiatives and activities which seek to promote ESG and

responsible investment. While COVID-19 has limited the number of presentations we've been able to do—both internally and at conferences—we hope to see this pick up again in the future. In the last six months, we've:

Attended

18

Collaborative ESG briefings, roundtables and conferences

Attended numerous broker ESG research meetings

We regularly participate in informal ESG-related dialogue with our peers on a broad range of matters. It's often this interaction which is most insightful, but difficult to quantify.

The briefings and conferences we attended pertained to a wide variety of matters, including:

- climate and carbon risk, adaptation and resilience
- facilitating corporate sustainability roundtables
- modern slavery reporting
- electric vehicles and automation
- renewable energy and battery storage
- waste and recycling
- impact investing
- human rights, workers' rights, labour standards and wages fraud

- occupational health and safety
- shareholder and civil society activism, and
- Indigenous land rights and Juukan Gorge.

#### UNIVERSITY RESEARCH REGARDING SUSTAINABILITY REPORTING

We participate in a range of university research projects regarding a variety of ESG / responsible investment related matters.

Over the period, we participated in one academic study regarding sustainability reporting and investor expectations. As the fund for Australia's higher education sector we believe it's important to make ourselves (and our practical investment experience) available to our member academics in the pursuit of their research, where appropriate.

#### REPORTING OUR ACTIVITIES

We're committed to being transparent regarding our approach to ESG, and to reporting on the work that we do in this area. We've reported our proxy voting results for close to 15 years, and for the last eight have prepared a more detailed half-yearly responsible investment report.

### Member choice

In addition to integrating ESG considerations across all investment decisions (portfolio wide), we also provide for member choice in our Accumulation products. We understand our members have a range of different values and it's important to consider these preferences in the investment options we offer.

As at 30 June 2020, these options were meeting their return objectives. Due to the restrictions of the portfolio, while the long-term return objectives (as per Table 3) are the same as their mainstream counterparts, it's expected that differences in returns will occur, and potentially persist over multi-year periods.
