Clause 19 of the Trust Deed gives the Trustee power to make Regulations to deal with matters not specifically dealt with by the Trust Deed, including any matters incidental to the operation of the Trust Deed.

Regulations may be prescribed and amended by resolution of the Trustee or in such other manner as the Trustee may determine. All Regulations were prescribed by resolution of the Trustee.

Various Regulations are amended by resolution of the Trustee with effect on and from 3 January 2015 so as to effect the removal of inbuilt benefits for Division C members (Regulation 6.C.6 deleted, 7.B.2 amended, 8.A.1 amended, 8.B amended, 8.C.2 amended, 8.C.3 amended, 8.D.1 amended, 9 amended, 10.C.2 deleted, 13.B amended, 15.C.(a) amended, 15.D amended, 16.1 amended, 16.1.A inserted, 16.6 amended). However, to the extent that any of the Regulations that were in effect immediately before 3 January 2015 relate to the payment of benefits from Division C on disablement, terminal medical illness, temporary incapacity or death, those Regulations will continue to apply in respect of a Member to the extent that the Member is entitled to inbuilt benefits under the terms of the document entitled "Takeover Terms – Transition of Inbuilt Benefits to External Insurance Cover – Accumulation 2 Members" agreed between the Trustee and TAL Life Limited ABN 70 050 109 450 dated 9 October 2014 ("**Takeover Terms**") until those provisions cease to apply in accordance with the Takeover Terms.

Regulation 1 – Contributions (Clauses 32 and 33)

A. Employer paid member contributions and Member paid employer contributions

Members of a Defined Benefit Division and Division C14 Members

1. For the purposes of Clause 32.7(b), the Trustee determines that a further amount of the Member's Salary shall be payable to meet the additional contributions tax liability.
2. Where an arrangement has been entered into under Clause 32.7, the Member shall be relieved of his or her contribution obligation with effect from a date agreed by the Member and Employer.
3. No amount paid by the Employer pursuant to Clause 32.7, nor the application of crediting rates on any such amount, shall be taken into consideration in determining the Member component of any benefit.
4. Subject to the Trustee's consent, where a Division A or a Division B Member is absent from Service without Salary, with the approval of the Employer, the Member may elect to make sufficient contributions, as determined by the Trustee, to the Fund to maintain full benefits under the Fund for the period of absence. The Salary used to calculate such contributions is the Member's Salary immediately prior to the absence commencing.
5. Any election made by the Member under Regulation 1.A.4 shall be conditional on the Employer maintaining its contributions during the period of the Member's absence, or on the Member making sufficient additional contributions, as determined by the Trustee.
6. During a period of absence as specified in Regulation 1.A.4 the Member may elect to pay a proportion not less than 50% of the contributions otherwise payable to maintain benefits as if the Member were on the Service Fraction reflecting that proportion for the period of the Member's absence. Such election shall be conditional on the Employer maintaining the same proportion of its contributions for the period of the Member's absence, or the Member making sufficient additional contributions, as determined by the Trustee.
7. An election under Regulation 1.A.4, 1.A.5 or 1.A.6 shall be in a form acceptable to the Trustee and no election made under those Regulations shall remain in effect for a period greater than twelve months.

and
 - (b) 100%, if the additional contribution is a concessional contribution.

- (a) where an amount is paid to a Member entitled to benefits under Divisions A or B in lieu of leave to which the Member is entitled; and
- (b) Member and Employer contributions at the rate required in respect of a Member entitled to benefits under Divisions A or B are received in respect of such Member in respect of such payment;

the Trustee may allocate such contributions to Division A or B (as applicable) and, if so, the Service Fraction of the Member shall be increased by such amount as shall be determined by the Trustee after taking into account the advice of the Actuary. If the Trustee does not allocate the contributions to Division A or B, the Trustee must allocate the contributions to Division C.

B. Voluntary Contributions

2. Subject to Regulation 1.G.3, a written application to reduce contributions under Clause 32.9 will take effect at the commencement of the next pay period after the application has been processed by the Trustee.
3. If the Trustee has made a determination for purposes of Regulation 1.G.1, the application will take effect at a date to be determined by the Trustee. 2. The Trustee, after paying any tax required on receipt of a transfer value or rollover amount, shall establish an account for the Member and credit the net amount of the transfer value or rollover amount to that account. The account shall be known as the “Member AACC Account” and the investment return of the assets of UniSuper's defined benefit pool from time to time (after deduction of investment management fees, Fund taxes and associated costs if applicable) will be credited/debited to the account six monthly on 30 June and 31 December or as otherwise required.
3. UniSuper Regulations

where:

lump sum factor is the factor determined in accordance with Table A of Schedule 2 of the Trust Deed having regard to the Member's age at the date the transfer value or rollover amount is received.

Benefit Salary shall have the same meaning as in Clause 1.1, being calculated on the date the transfer value or rollover amount was received.

6. On the Member becoming entitled to receive a benefit (other than a Temporary Incapacity or Disablement benefit) from the Fund under Division B, an additional amount shall be payable as follows:

- (a) in the event of the benefit to which the Member has become entitled to being a lump sum the greater of the total amount standing in the Member's AACC Account and an amount calculated in accordance with the following formula:

$$\text{Additional service} \times \text{Lump Sum Factor} \times \text{Benefit Salary} \times \text{ASF}$$

- (b) in the event of the benefit to which the Member has become entitled being a pension, but not a pension payable under Clause B.5.1, the greater of:

- (i) the total standing in the Member's AACC Account multiplied by the Member's Pension Factor and divided by the Member's Lump Sum factor; and

- (ii) an amount calculated in accordance with the following formula:

$$\text{additional service} \times \text{Pension Factor} \times \text{Benefit Salary} \times \text{ASF}$$

2. Where the Member has not directed the Trustee as to the investment option to be adopted in relation to the amount transferred or rolled over under Regulation B.1, in accordance with Clause 26.1, the transfer value or rollover will be invested in the Fund's default investment option in accordance with Regulation 11.
3. Where a transfer value or rollover received prior to 2 November 2001 contains an unrestricted non-preserved component, this component becomes a restricted non-preserved component while the Member is employed by an Employer, in accordance with Clause 8 of the Trust Deed in effect at that time, and Clause 53.2 of the Trust Deed dated 2 November 2001.

 - (iii) benefits consisting of:
 - A. an immediate pension for the life of the Member at an annual rate not exceeding the rate referred to in sub-paragraph (i) (to be specified by the Member); and

19.8 Surviving Spouse pension

If a Member who is in receipt of a pension (other than a Disablement benefit prior to age 65) under this Division dies, an immediate pension will be payable for the life of the deceased Member's surviving Spouse at an annual rate equal to 62.5% of the pension otherwise payable to the Member.

19.9 Dependent Child pension

If a Member who is in receipt of a pension (other than a Disablement benefit prior to age 65) under this Division dies, an immediate pension will be payable at the following percentages of the pension otherwise payable to the Member:

- (a) if there is a surviving Spouse as at the date on which a payment is to be made pursuant to this regulation 19.9 and:
 - one Dependent Child 17.5%
 - two Dependent Children 27.5%
 - three or more Dependent Children 37.5%

Subject to Clause 43(d), if a Child ceases to be a Dependent Child or dies after the date on which a pension first becomes payable, the pension payable in respect of the former Dependent Child or remaining Dependent Children will cease, or be adjusted, accordingly.

19.10 Commutation

- (a) Subject to regulation 19.10(d), a Spouse of a deceased Member who is about to become entitled to a pension may commute all or part of the pension to a single lump sum payment calculated by applying the

- (b) Subject to regulation 19.10(d), any person who is in receipt of a pension (other than a Disablement benefit prior to age 65) may request the Trustee to commute all or part of the pension to a single lump sum payment. Any such request will be dealt with by the Trustee at its absolute discretion. The Trustee is not required to give reasons as to the manner in which it exercises that discretion. If the Trustee allows the request, it may commute all or part of the pension on a basis determined by the Trustee after having obtained the advice of the Actuary.
- (c) Subject to regulation 19.3.6, Disablement benefits, Temporary Incapacity benefits and pensions payable to or in respect of Dependent Children under this Division B may not be commuted.
- (d) The Trustee must not commute any pension under this Division in any manner which, in the opinion of the Trustee, will or may be inconsistent with Superannuation Law.
